BEACH
COFFEE CO.

FOR COFFEE SHOPS · ORDERING, PAYMENTS & LOYALTY

Your coffee shop, *onchain.*

Guests order from their phone and get a ping when it's ready. The barista runs everything from one panel. Tips and merch in **USDC on Solana** land straight in your wallet, and **tokenized loyalty** brings people back. Proven for a full month at a live event.

01 How it works

ORDER
From their seat
A Telegram Mini App or the installable app. No line, no lost orders.

MAKE
One barista panel
App and walk-up orders in a single live queue.

PING
"Your coffee is ready"
The guest gets a notification and just picks it up.

PAY
USDC in seconds
Tips or merch, from the guest's wallet straight to yours.

02 The system

Guest app
Live menu, drink descriptions, milk options, sold-out items, opening hours and the "ready!" ping. Telegram, browser and Seeker.

Barista panel
Queue, walk-up orders, stock, per-guest limits, breaks, open and close with one tap.

Reports & finance
Cups per day, peak hours, top drinks, costs, income and profit. Recap cards ready for social media.

USDC on Solana
Solana Pay: every payment confirmed onchain. Fees in cents, no custody: the money is yours instantly.

Limited edition
Sell your coffee in a bag with your own label, in USDC, in the same app. Stock and hand-over in the panel.

Coffee race
A live leaderboard of your guests, a 1 USDC daily boost and a Top patrons board. It went viral on X.

03 Tokenized loyalty

Guests who come back
- **USDC boost**: +1 cup in the race, once a day LIVE
- **Top patrons**: your biggest supporters get their own board LIVE
- **NFT medals** for the top 3 of every season PILOT
- **Token points**: spend USDC, earn your community's points, with Giants PILOT

Why USDC on Solana
- **Digital dollar**: 1 USDC = US$1, no volatility
- **Seconds and cents** per transaction
- **No middleman**: straight to your wallet
- **Phantom, Solflare** and the Seeker phone

Bring it to *your coffee shop.*

We set up your menu, your bot and your wallet, and stay with you through the first weeks.
