ISLAND DAO HACKATHON · PAYMENTS + COMMERCE

BEACH COFFEE CO.

Coffee, onchain. A bar system built from zero, at the bar.

THE PROBLEM

A COFFEE BAR AT A BUILDERS' EVENT

Lines at the bar

Everyone wants coffee in the same break.

Lost orders

Shouted orders, no names, nobody knows it's ready.

No one carries cash

Tips and merch need a way to pay that people already have.

Crypto still breaks

Our first solana: QR didn't open in phone cameras or exchanges.

HOW IT WORKS

TAP. SIP. TIP.

01

Order

Free drinks from a Telegram Mini App, where the event already lives.

02

Ready

One panel for every order; one tap on Ready pings the guest.

03

Tip

An optional tip in USDC on Solana, confirmed onchain in seconds.

PAYMENTS ON SOLANA

EVERY PAYMENT CHECKED ON-CHAIN

Wallet pays

Phantom or Solflare sends USDC with a unique Solana Pay reference.

Bot watches

Looks the reference up every minute, every 3 s while the page is open.

Exact match

Accepted only if the shop’s address got the full USDC amount.

Bar notified

Tip or Coffee Bag paid for the barista; a thank-you for the guest.💛

REPORT · 22–28 OCT

THE EVENT SO FAR

356
drinks served in 5 days

33
guests ordering on Telegram

100

WHAT'S NEXT

FROM ONE BAR TO EVERY EVENT

Other events and cafés. Menu, brand and wallet are just settings.

Onchain loyalty. The coffee lovers ranking becomes rewards.

"Tip the barista" Blink. Tip straight from a post on X.

> **Proof of brew.** Built from zero at the bar, not by a dev team. On the island, anyone can build.
