01 How it works

ORDER
From the table
On their phone, inside Telegram, a free messaging app like WhatsApp. Nothing to install.

MAKE
One screen for the barista
Phone orders and counter orders in one list, in real time.

NOTIFY
"Your coffee is ready"
The customer gets a message and comes to pick it up.

PAY
Tips in digital dollars
Customers tip or buy products in USDC. It reaches you in seconds.

02 What you get

Customer app
Your live menu with descriptions, milk options, sold-out items and opening hours. In Telegram, any browser, or as a phone app.

Barista screen
Order list, counter orders, stock, limits per customer and breaks. Open or close the shop with one tap.

Reports & finance
Cups per day, busiest hours, best-selling drinks, costs, income and profit. Ready-made posts for social media.

Digital-dollar payments
Payments arrive in seconds and cost cents. No bank or card machine in the middle: the money goes straight to you.

Your own coffee bag
Sell your coffee with your shop's label inside the same app, with stock and pick-up control.

Loyalty game
A live ranking of your most loyal customers. It made people come back every day, and they shared it on social media.

03 Loyalty with digital rewards

Customers who come back
- **Extra point**: customers pay 1 USDC to move up the ranking, once a day LIVE
- **Top supporters**: the biggest tippers get their own board LIVE
- **Collectible digital medals** (NFTs) for the top 3 of each season PILOT
- **Reward points** customers earn when they pay, with our partner Giants PILOT

What is USDC?
- **A digital dollar**: 1 USDC is always worth US$1
- **Fast and cheap**: arrives in seconds, costs cents
- **Direct**: from the customer's wallet app to yours
- Runs on **Solana**, a fast, low-cost payment network

Bring it to *your coffee shop.*

We set up your menu, your ordering app and your payments, and stay with you through the first weeks.
