ISLAND DAO HACKATHON · PAYMENTS + COMMERCE

BEACH COFFEE CO.

Coffee, onchain. A bar system built from zero, at the bar.

THE PROBLEM

A COFFEE BAR AT A BUILDERS' EVENT

Lines at the bar

Everyone wants coffee in the same break.

Lost orders

Shouted orders, no names, nobody knows it's ready.

No one carries cash

Tips and merch need a way to pay that people already have.

Crypto still breaks

Our first solana: QR didn't open in phone cameras or exchanges.

HOW IT WORKS

TAP. SIP. TIP.

01 Order from your seat

A Telegram Mini App: pick the drink and the milk, confirm.

02 Keep building, get pinged

The barista taps Ready; you only walk over to pick it up.

03 Tip in USDC, if you like

Phantom or Solflare, confirmed onchain in seconds.

> **~5 min in line → 0.** No more standing at the bar.

TRY IT NOW

10 Iced Coffee and
10 Iced Latte, on us.

🛍️ **Buy the Island DAO Edition bag**
Only 20 · 10 USDC in the Tip & Bag tab

PAYMENTS ON SOLANA

EVERY PAYMENT CHECKED ON-CHAIN

Wallet pays

Solflare, Phantom or the Seeker's wallet sends USDC with a unique Solana Pay reference.

→

Bot watches

Looks the reference up every minute, every 3 s while the page is open.

→

Exact match

Accepted only if the shop's address got the full USDC amount.

→

Bar notified

Tip or Coffee Bag paid for the barista; a thank-you for the guest.💛

WHAT'S NEXT

FROM ONE BAR TO EVERY EVENT

Other events and cafés. Menu, brand and wallet are just settings.

Onchain loyalty. The coffee lovers ranking becomes rewards.

"Tip the barista" Blink. Tip straight from a post on X.

> **Proof of brew.** Built from zero at the bar, not by a dev team. On the island, anyone can build.
